

Research Award of the Jörg Wolff Foundation

under the patronage of the European Society for Photobiology

Arnold Rikli Sponsorship Award 2018

For photobiological investigations in relation to human beings, we hereby announce the awarding of the

2nd Arnold Rikli Sponsorship Prize

to the value of 5.000 Euro for the year 2018.

The sponsorship prize was announced for the first time in 2016 and is in addition to the annual Arnold Rikli Award from the Jörg Wolff Foundation in Stuttgart (Germany) and is intended particularly for young photobiological scientists up to 35 years old.

The prize is intended as financial support for a research project. The research will concern biological or medical effects of applied optical radiation (ultraviolet, visible, and infrared radiation) in humans. Research concerning the development of diagnostic and/or therapeutic methods or new aspects of them are preferable. The prize money may be used for travel and living expenses associated with visiting an external research laboratory to carry out the research project or for partial funding of the research project in the institution of the awardee.

Interested scientists can apply for the prize with a research plan and CV in the English language at the office or e-mail address mentioned below not later than February 28, 2019. The research emphasis must relate to one special subject area. The submission must include statements as to how the intended research

will facilitate the applicant's future career in photobiology and how the prize money will be used in detail. The research plan should be no more than three pages (approx. 10.000 words) and must be endorsed by the senior scientist responsible for the applicant in his/her institution and the hosting senior scientist if applicable.

An independent scientific jury will assess the submitted applications and will determine the prize winner. Three months after completion of the visit or of the supported project a final report signed by the prize winner and the corresponding senior scientists as well as detailed proof of expenses associated with the funds must be provided.
